ANALYST NOTE

Mid-tier resale in the \$250-300K band is where most BSW + military buyer demand actually clears. 1,898 sqft on .34 acre at \$142/sqft is the natural buyer-shopping zone — DOM 195 with three cuts shows it was overpriced at list, not the home itself. Negotiable to \$260-265K if buyer is qualified and ready to close. The pattern matters more than the property: when three cuts haven't moved it in 6 months, the seller's emotional anchor is the obstacle, not the market.
